

Discounted IDT pricing through the UBC CMMT web portal

Log in at www.idtdna.com/cmmtss to receive exclusive benefits on our industry-leading products.

FREE SHIPPING ON ALL ORDERS*

- No brokerage fees
- Pay with your UBC speedchart
- Pick up your oligos at the CMMT Science Stores Facility

* Excludes shipments containing plate products and 1 L buffers. Enquire for details.

QUALITY YOU CAN RELY ON

- Free ESI mass spec on every oligo
- Accurate molecular weight and single peak guaranteed
- Free QC documentation available online

Custom desalted DNA oligos

Synthesis scale	Price/base (tubes)	Price/base (96-/384-well plates)	Maximum length
25 nmol	C\$0.20	C\$0.13	60 bases
100 nmol	C\$0.39	C\$0.20	90 bases
250 nmol	C\$0.80	C\$0.55	100 bases
1 µmol	C\$1.60	C\$1.10	100 bases

Other products available from IDT

- **Alt-R™ CRISPR-Cas9 System** for genome editing
- **xGen® Lockdown® Probes and Panels** for NGS target enrichment
- **PrimeTime® Gene Expression Master Mix and Probes** for qPCR
- **gBlocks® Gene Fragments** for a wide variety of molecular biology applications

Visit www.idtdna.com/cmmtss to set up a new account and order through the portal. If you already have a direct IDT account, please be sure to use a different username and password when setting up your portal account.
